

Business card, actual size.

89 × 51 MM
US LETTER · 100% SCALE

In the print dialog set **Scale: 100%** – not “Fit to page” – and margins to minimum. Check the ruler at the foot before cutting: if the 100 mm bar measures 100 mm, the cards are true. Cut along the hairlines.

SCALE CHECK – THIS BAR IS EXACTLY 100 MM

For the real run: 350–400 gsm uncoated stock, matte. Home printers rarely register front to back – cut the fronts and backs apart and hold them together to judge the pair.
